FILE LAYOUT FOR: OPEN ORDERS – BOOKS and RECORDS

GENERAL INFORMATION

File Frequency: Daily
Record Size: 500 characters
Form Name: OORD

DESCRIPTION

The Open Order Books and Records file (OORD) is created from the Books and Records repository, which is updated on a nightly basis. This file contains Good-until-types of orders that have not been completely executed (or have not yet expired or been cancelled), as well as day orders that have been either partially executed or have not been executed at all. This file contains order data requirements for Books and Records processing.

This file contains A, B, and C records:

A – relates to basic information regarding the order (there is one A record per order)

B – relates to Books and Records regulatory information (there is one B record per order)

C – relates to the security-specific information related to the order (there is one C record per order)

The symbol “**■**” is used on our standard files to represent spaces.
