

PERSHING STANDARD FILE LAYOUTS INTRADAY

FILE LAYOUT FOR: NAME AND ADDRESS

GENERAL INFORMATION

File Frequency: Inception and Intraday

Message Size: 900 characters

Form Name: NADD/NCHG

DESCRIPTION

Intraday Name and Address Add (NADD) and Intraday Name and Address Change (NCHG) messages are modeled after the batch NADD and NCHG files. The NADD/NCHG messages are generated from Pershing's daily PONA process. The information found in the Name and Address messages are the basis for an extensive client profile. Information is maintained regarding the client's documents (for instance, new account form, W-9, W-8, margin agreement), in addition to information about interested parties, IRA/SEP/KEOGH, and beneficiary records.

Add messages are new accounts and change messages are accounts where revisions have been made. Please note that the change file includes the A, B, C, D, and E Records.

Intraday messages are sent between 5:30 A.M. and 8:30 P.M. Monday through Friday. Intraday messages are sent from 5:30 A.M. to 5:30 P.M. on Saturday. Messages are not sent on Sunday.
